

May 2025

Dear Fourth-Graders,

I hope you are excited about joining us in the Middle School next year. As you enjoy a well-deserved summer vacation, I want to remind you of the importance of keeping your math skills sharp. Over the summer you are encouraged to complete the attached math packet. I would also like you to continue working on your addition, subtraction, and multiplication facts to keep your skills sharp and ready for fourth grade math.

Each week over the summer you should work on your math skills even if it is just a few minutes. I suggest you complete one page of this packet per week. You will be more prepared for fourth grade if you spread out your practice throughout the summer. I am expecting you to know all of your addition, subtraction, and multiplication facts when school starts in August. One of the most important tools in problem solving is to know your facts so that you can use all of your mental energy to solve the big problem.

Suggested ways to practice your math facts:

Freckle Math

iPad Apps

Computer Websites/Games

Pencil & Paper

Attached timed tests

Flashcards

I am looking forward to working with you this next school year.

Have a great summer,
Ms. Molloy
4th grade Math teacher
